

For quality
professional
carbon reduction
advice and a
more sustainable
building...

**Make sure you
use a CIBSE
Low Carbon
Consultant**

CIBSE
LOW | **CARBONCONSULTANTS**

THE CHARTERED INSTITUTION OF BUILDING SERVICES ENGINEERS

CIBSE Low Carbon Consultants lead the market in advising on carbon minimisation in both the design and operation of buildings.

CIBSE Certification Ltd trains **CIBSE Low Carbon Consultants (LCCs)** who have a depth of knowledge which will provide you with expert advice not only on the current performance of your building but on how to improve performance in the future.

CIBSE LCCs can provide a plan to reduce your carbon emissions and lower your energy bills. When you use a CIBSE LCC you can be sure you are receiving the best service in the industry.

When you are ready to discuss your individual requirements, contact a CIBSE accredited Low Carbon Consultant.

WHY USE A CIBSE LOW CARBON CONSULTANT?

TRUE VALUE FOR MONEY

With a CIBSE LCC the service you receive will be of real value to your business. CIBSE LCCs are experts who do more than simply count carbon; they produce tailored reports to help you cut the energy costs and carbon emissions of your buildings.

KNOWLEDGEABLE PRACTITIONERS

All CIBSE LCCs have an excellent understanding of energy management and assessment. The recommendations they make will be based on sound knowledge of what works in practice and will enable you to take simple, low cost steps towards saving energy and reducing waste.

INDUSTRY LEADERS WHO COMMAND RESPECT

CIBSE Certification Ltd was one of the first organisations to be given the go-ahead by government to accredit Energy Assessors. It certifies only trained experts working towards a sustainable built environment.

FULL QUALITY ASSURANCE

CIBSE Certification Ltd maintains a rigorous quality assurance system which monitors the work of LCCs to ensure that quality standards are being met.

BOOST YOUR CSR REPUTATION

CIBSE runs the annual Low Carbon Performance Awards. Entering these awards could give your efforts more recognition and provide increased levels of awareness for the environmental credentials of your organisation. For more information visit www.cibse.org/awards2010.

So to increase your company's profitability and reduce your carbon emissions, take advantage of our market-leading expertise and let a CIBSE Low Carbon Consultant help.
